

Soup Detox

How it Works . . .

Our soup detox, or soup fasting, involves the short-term intake of two different kinds of vegetable soups. The soups are all natural in its contents with no additives and seasoned very lightly.

There should be a gradual start into this detox as well as a slow return to solid foods after the fasting period.

The benefit of soup fasting is that it gives your digestion system a break from working so hard to process a large meal. The soups are every day the same, very light and easy to digest. Therefore your body can concentrate and work rapidly on the detoxification. This leads to feeling joyful and light, and keeps you slim and radiant.

You will receive your daily package of soups every morning with one delivery per day.

The day before:

Eat light, minimize animal products, eat more vegetables and fruits. Drink a lot of tea (no green/black tea) and water. A good preparation makes your 1st detox day easier as you will be less hungry!

Don'ts

Coffee, green/black tea, cigarettes, drugs and any other intake besides the advices below.

What do you get?

1 pack Epsom Salt (ask for more if you want to do it second time)

Breakfast: 1 bottle of Coconut Water

Mid morning: Miracle Soup

Lunch: Magic Soup

Afternoon: Miracle Soup

Dinner: Magic Soup

First day:

Early morning you have to do the **Epsom salt flush**.

Mix the full pack of Epsom salt you have received in 250ml glass lukewarm water.

Drink the glass completely in one gulp, to be followed up with 4 glasses of lukewarm water straight afterwards. After about 1hr and for a period of approx. 2hrs you will be busy going to the toilet, so be prepared ☺

Drinking:

Min. 3litre of water/day, plus the bottles you receive. If you like drink more tea, e.g. peppermint, camomile, rooibos or any herbal tea you prefer. Flush your body! The more you drink the easier the body can get rid of toxins.

Start best with tea in the morning - without sugar/honey or anything else!

Recommend Supplements: Calcium, Magnesium, Iron, Fish oil capsules

Additional recommendations:

Scrub your body before every shower with a dry towel or body brush.

Moisturise your body well with natural oil like coconut oil or our Avocado Toning Oil (a mixture of 7 different essential oils).

If you have a bathtub, take a warm bath with 500g Epsom salt (need to order it additionally)

Have a massage and a good rest in the evening. Try to get enough sleep.

Exercise:

It is good to stay active as this will boost your energy and hormones. You are allowed to do exercise in the pace you feel good, just follow your body feeling and inner voice when exercising. We recommend to balance your mind and body with a daily meditation or Yoga routine too.

After the Soup Detox

The first 48 hours after breaking the detox, follow a vegan diet (no animal products at all).
NO ALCOHOL!

You should stay low in animal products and dairy for the following 1-2 weeks, then start step by step to eat some yogurt, eggs and fish.

Examples:

Breakfast: Fruit Salad + Walnuts/Almonds or a rich juice with 2/2 Veggies/Fruit

Lunch: Salad or cooked Vegetable with any complex grains as Quinoa or Millet.

Dinner: Cooked Vegetable with Tofu/Tempeh/Brown Rice or Sweet Potato

Snacks: A hand full of Nuts and Fruits

Stay on track and make healthy eating and sport to your lifestyle.

PLEASE NOTE: All empty glass jars/bottles will be picked up with your new delivery on the next day, please have them handy for our drivers.
